***Allowable Subject Matter***

1. **Claims 1-14** are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not fairly teach or suggest a product security system and method having polymerized constituent monomers formed into long-chain cross-linked polymers that entangle a wireless RFID chip and a tuned antenna with a product container wherein opening of the product container or removal of the wireless RFID chip and tuned antenna breaks the antenna and renders the RFID chip. These along with further limitations set forth by the claims render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
